KYLE W SINGLETON
CURRICULUM VITAE

CONTACT INFORMATION

Los Angeles, CA
Tel: (540) 798-8372
E-mail: kwsingleton@ucla.edu

EDUCATION

University of California, Los Angeles Los Angeles, CA
Doctor of Philosophy in Biomedical Engineering 2016

University of Virginia Charlottesville, VA
Bachelor of Science in Biomedical Engineering, Minor in Computer Science 2006

DISSERTATION

Investigating Predictive Disease Model Transportability through Cohort Simulation and Causal Analysis
Advisors: Alex A.T. Bui and William Hsu

PROFESSIONAL EXPERIENCE

Graduate Student Researcher 2013 - 2016
UCLA Medical Imaging Informatics, Los Angeles, CA

Constructed and evaluated disease models of brain cancer survival (Glioblastoma Multiforme). Implemented and evaluated a novel simulation approach for interpreting the transportability (external validity) of predictive models in independent patient cohorts. Employed lung and brain cancer data from public data repositories (National Lung Screening Trial and The Cancer Genome Atlas). Compiled text and imaging data from UCLA brain cancer medical records for transportability analysis.

National Library of Medicine Fellow 2008 - 2013
UCLA NLM Medical Imaging Informatics Training Program, Los Angeles, CA

Completed coursework in medical informatics, statistics, and machine learning. Developed, deployed, and supported tablet based surveying systems for medical data collection in Los Angeles clinics.

Post-baccalaureate Fellow 2006 - 2008
National Institutes of Health, Bethesda, MD
Section on Stroke Diagnostics and Therapeutics, NINDS

Designed, developed, and implemented workflow to accelerate image use in stroke research. Formatted and manipulated MRI data for development of a stroke atlas.

Undergraduate Researcher 2005 - 2006
Computational Systems Biology Lab, Charlottesville VA

Identified critical metabolic reactions of Leishmania major parasite. Worked with two peers to combine data into a metabolic network reconstruction.

Summer Intern 2004

American Biosystems, Inc., Roanoke VA

Performed market research and redesigned company website. Presented test of new product line against competing products at the 2004 Carilion Biomedical Institute (CBI) Business Plan Competition. Received $10,000 award and CBI office space.

FELLOWSHIPS AND AWARDS

First Place Student Paper 2014

Knowledge Discovery and Data Mining Working Group (KDDM-WG)

Finalist 2014

AMIA 2014 Student Paper Competition

UCLA Graduate Student Researcher 2012 - Present

NLM Biomedical Informatics Training Fellowship 2008 - 2012

NIH Postbaccalaureate Intramural Research Training Award 2006 - 2008

PROFESSIONAL ACTIVITIES

Memberships

Student Member, American Medical Informatics Association (AMIA) 2011-Present

Editorial Services

Student Reviewer, American Medical Informatics Association (AMIA) 2012-Present

PUBLICATIONS

RESEARCH PAPERS: PEER REVIEWED
